

C-ONE-EC

Single screw feeding unit - Easy cleaning system

C-ONE-EC is a single screw feeding unit engineered in different sizes in order to feed powders, granules, pellets, flakes and fibers and is available in volumetric or gravimetric versions. In the loss-in-weight modules, an analogue load cell is installed to guarantee a high weighing accuracy.

The EC series is ideal in for versatile production lines where a fast and accurate cleaning of the feeder is required.

PRINCIPLE OF OPERATION

One single motor through an integrated gear box, or 2 independent motors, drives the feeding screw and the horizontal agitator which avoids bridging and keeps a constant material flow. Different screw configurations allows the user to feed any kind of product with any kind of throughput accurately and with consistency.

MAIN FEATURES

EASY AND FAST CLEANING

Both the front and back feeder covers can be completely disassembled, the back part is held by a rail, ensuring an easy and fast cleaning operations

HIGH PERFORMANCE

C-ONE-EC can guarantee a high accuracy in feeding (+/-0.5%) in a range of 1:20.

WIDE RANGE OF MODELS

The wide range of different dosing units allows the user to feed from 0,2 to $22.800 \text{ dm}^3/\text{h}$.

MODULAR DESIGN

The design allows the possibility to change material and feed-rate by simply changing the screw and discharge outlet.

MODULAR HOPPERS

Various shapes and sizes of standard hoppers can be perfectly combined with various measuring extensions chosen in relation to flow rate, in order to meet different dosing needs

WEGHING SYSTEM

C-ONE-EC gravimetric units can be installed on a platform scale or in a special designed scale frame to keep the equipment more compact. Analog load cell features:

INSTALLATIONS

C-ONE-EC is always supplied prewired with junction boxes to permit an easy and fast installation.

C-ONE-EC feeders can be installed in a standalone frame or in a modular multi component dosing station frame C-MULTY which is available in various configurations: DS-4, DS-6 and DS-8, from 2 to 8 feeding units.

CONTROL SYSTEM & INDUSTRY 4.0

Feeder control system can manage from a single feeder up to several feeders and production lines. The PLC is supplied with OPC/UA protocol embedded, which make each machine modular and ready for industry 4.0.

HMI

The feeding control system is equipped with a user friendly HMI touch screen (7"-9"-15").

OPTIONS AVAILABLE

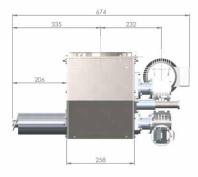

As an option, C-ONE-EC can be equipped with a vertical agitator, designed for high temperatures, ATEX compliant and/or FDA compliant.

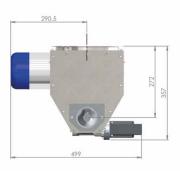

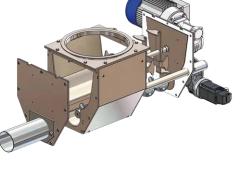

C-ONE-EC

TECHNICAL DATA

Configuration

- Cylindrical Hopper 28 lt
- Asymmetric Hopper 60 lt
 Asymmetric Hopper 90 lt
- Hopper extension 25/50/100 lt
- Stand alone feeder
- Multi feeder C-MULTY

Option

- Vertical Agitator for conical, asymmetric Hoppers
- Screw extention 50 mm
- Horizzontal agitator for powder
- Horizzontal agitator for flakes or granules
- Horizzontal agitator for fiber

C-ONE-DM60-EC

Configuration

- AC motor
- Brushless motor
- Single motorization - Double motorization
- FDA compliant
- ATEX compliant

Technical Data

Brushless Motor - Drive	
- Motor Size	0.4 kW
- Voltage	230 V
- Motor Class	IP55
- Speed Reducers	7:1 / 14:1 / 30:1

AC Motor - Drive (Option)

- Motor Size	0.37 kW
- Voltage	230-460/3/50-60Hz
 Motor Class 	IP55
- Speed Reducers	7:1 / 14:1 / 30:1
